

## *Resistance computation of a fast planning vessel by a commercial CFD code*

Directed by:  
Massimo Mariotti & Prof. Dario Boote

Guillaume Bastide

January 31<sup>st</sup> 2014, La Spezia

## Contents

### I. Introduction

1. Context of the master thesis
2. General notion of CFD

### II. Simulations

1. Geometry
2. Meshing
3. Time discretization

### III. Results

### IV. Conclusion

# I. Introduction

- I.Introduction
- II.Simulations
- III.Results
- IV.Conclusion

## 1. Context of the master thesis

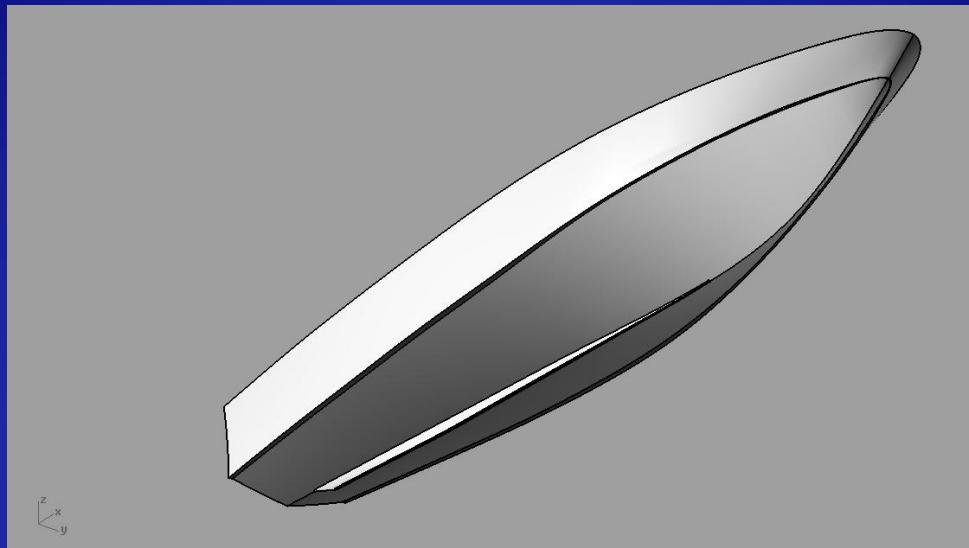

→ Hull form optimisation

→ Small changes

→ 2 different software options

## 1. Context of the master thesis

Froude	Bare	flaps	flaps-SR	flaps 6°-SR
25	0,82			
30	0,99			
35	1,15			

## 2. General knowledge of CFD

→ The set of equation to be resolved

$$\frac{\partial \rho}{\partial t} + \operatorname{div}(\rho \vec{V}) = 0$$

$$\sum \vec{F} = \rho \overrightarrow{F_{volume}} + \operatorname{div}([\bar{\sigma}])$$

$$\frac{d}{dt} \int_{V(t)} \rho E dV = W + Q$$

→ The RANS model

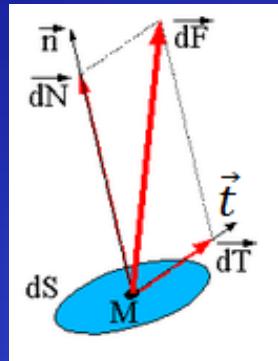

$$f = \bar{f} + f'$$

$$\bar{f} = \frac{1}{\Delta t} \int_t^{t+\Delta t} f dt$$

$$R_{ij} = -\rho \overline{V'_i V'_j}$$

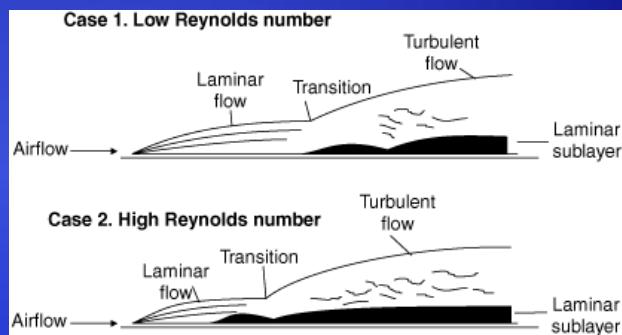

## 2. General knowledge of CFD

→ Forces computation

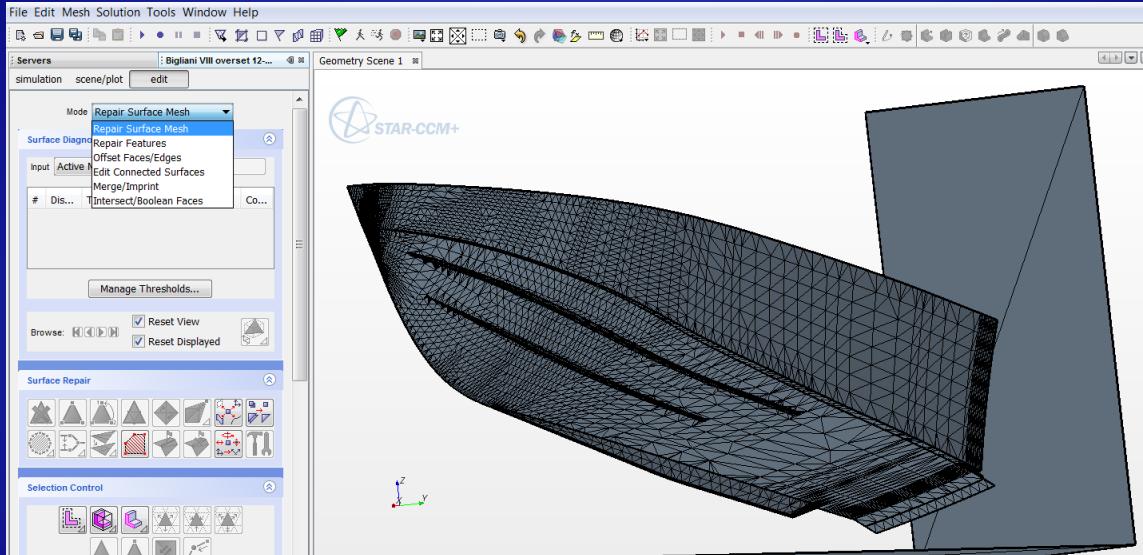

$$d\vec{T} = \mu \frac{\partial V}{\partial n} dS \vec{n}$$

$$d\vec{N} = -p dS \vec{t}$$

## II. The simulations

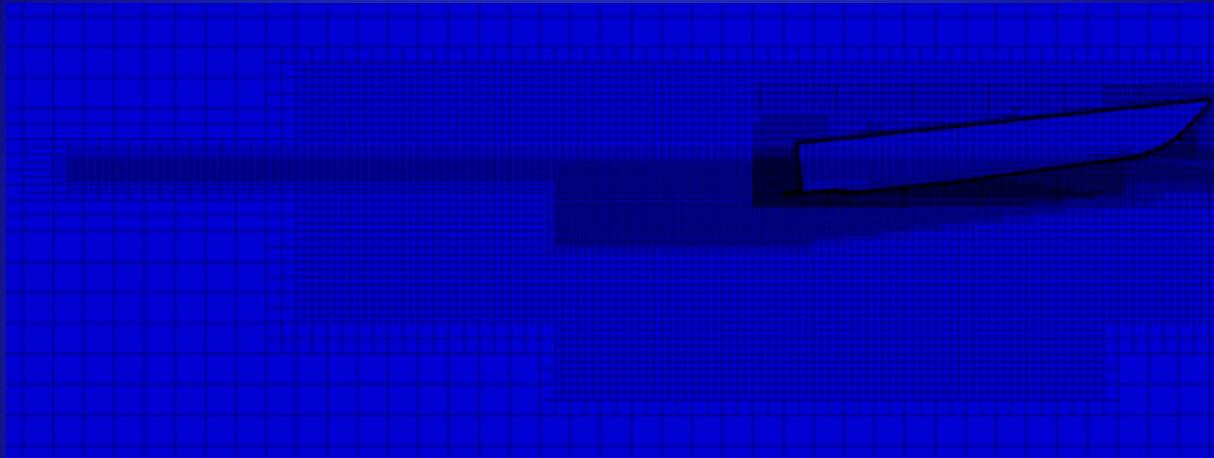

## 1. Importing the geometry

## 2. The meshing

## 2. The meshing

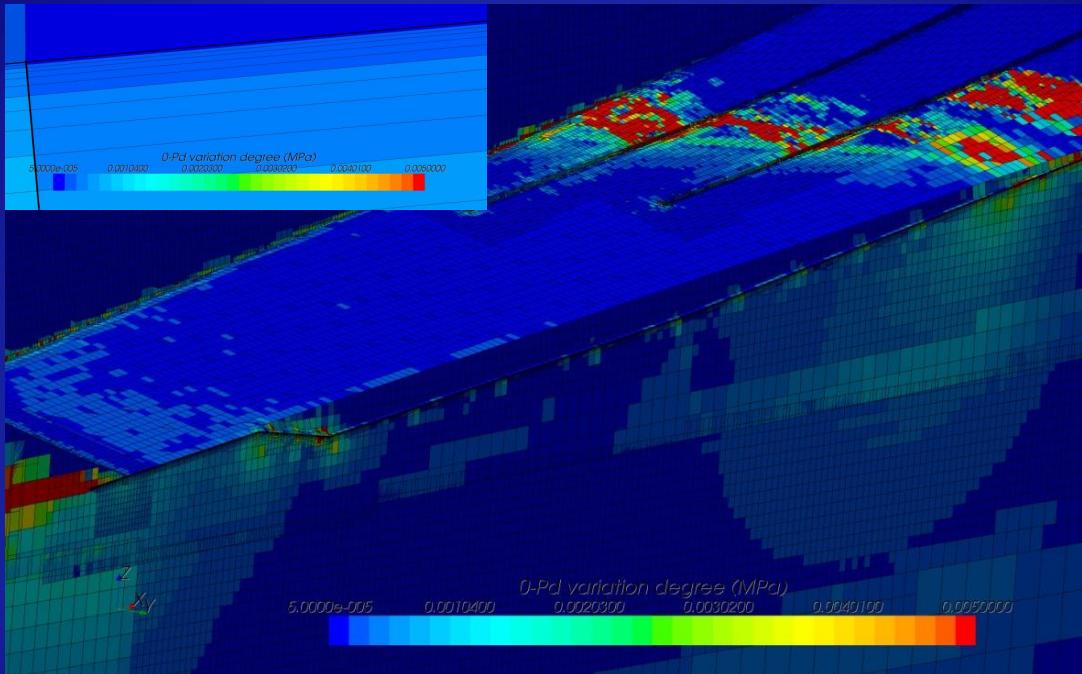

10/11/03

Master Thesis - Bastide - Intermarine - UNIGE

11

## 2. The meshing

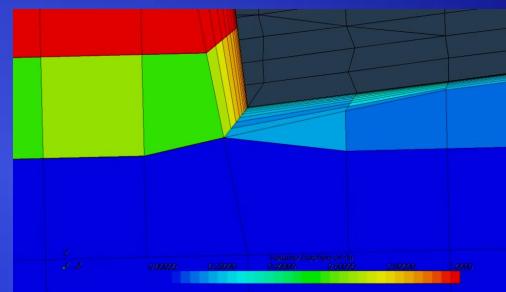

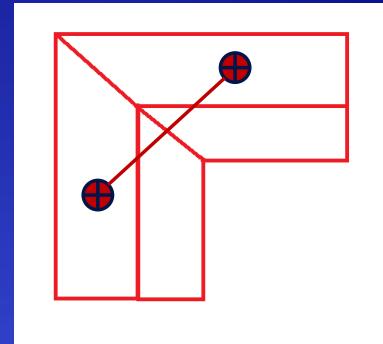

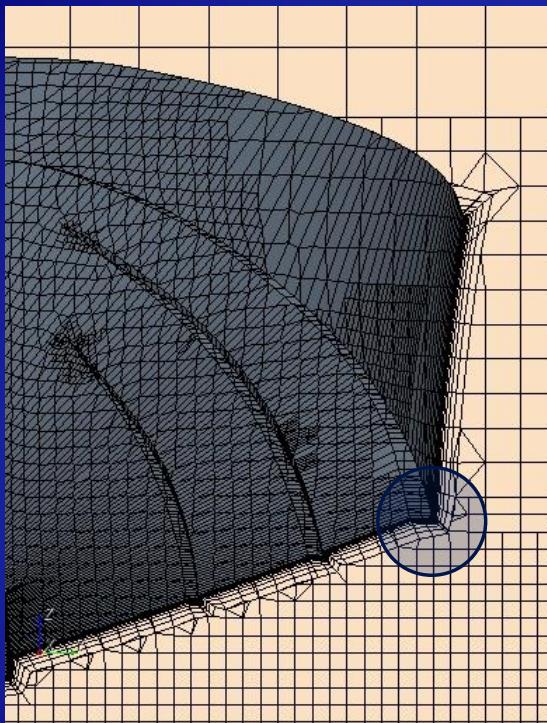

10/11/03

Master Thesis - Bastide - Intermarine - UNIGE

12

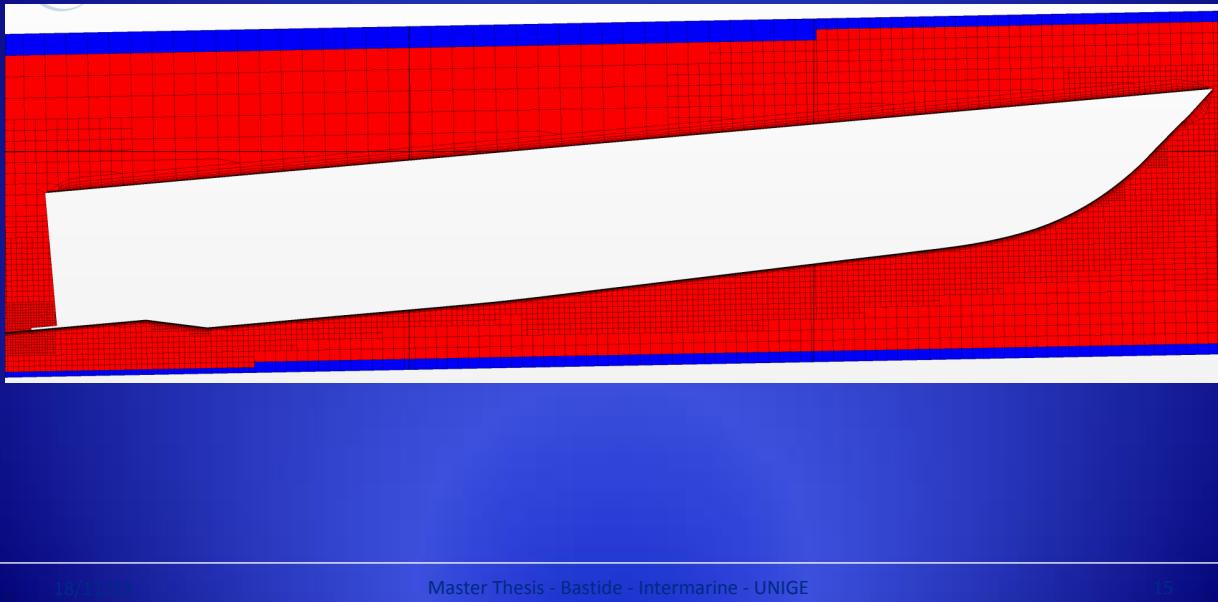

## 2. The meshing

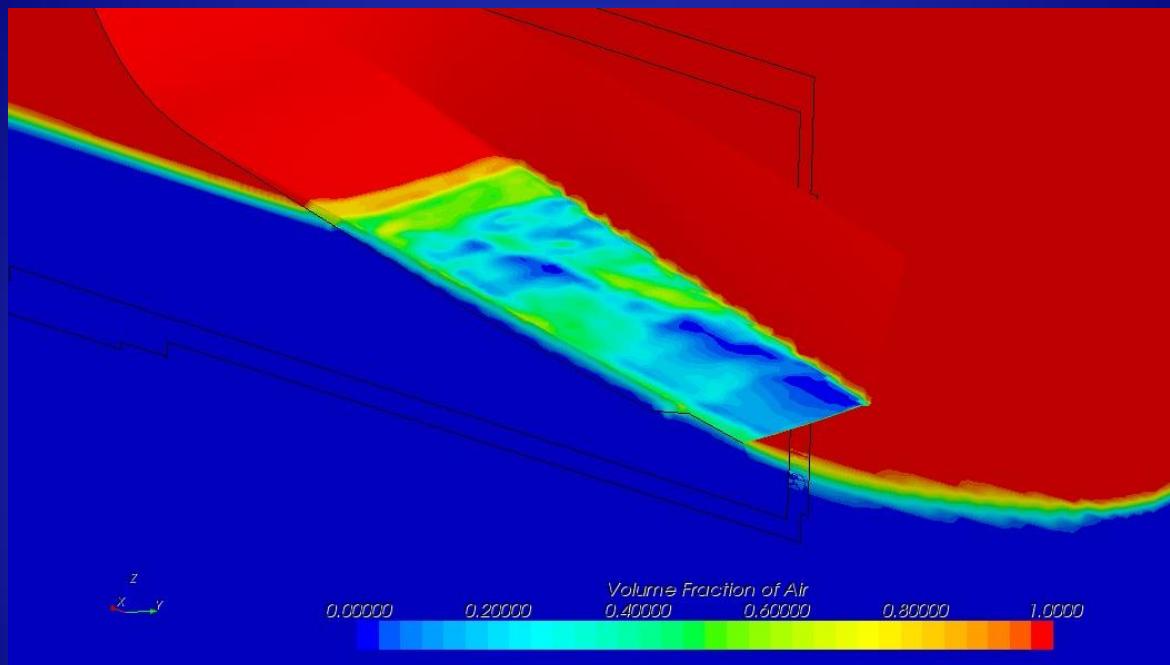

## 2. The meshing

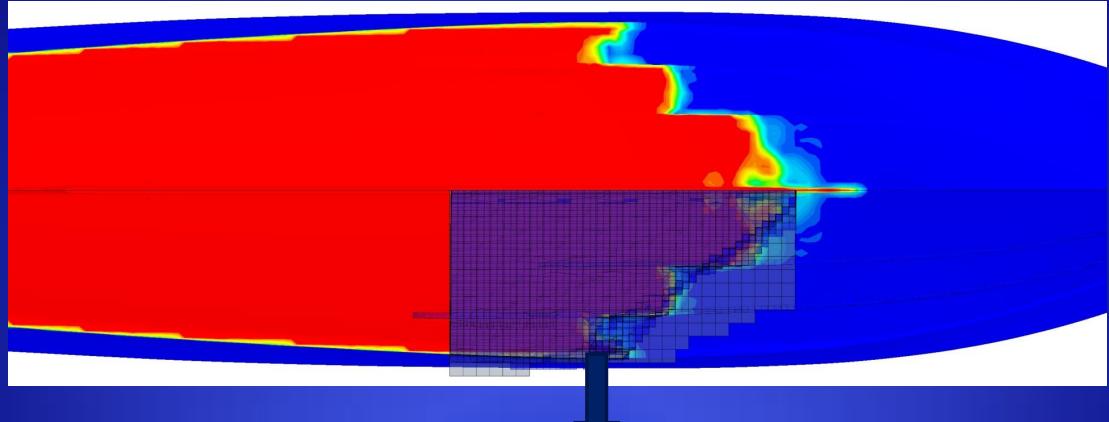

## 2. The meshing

## 2. The meshing

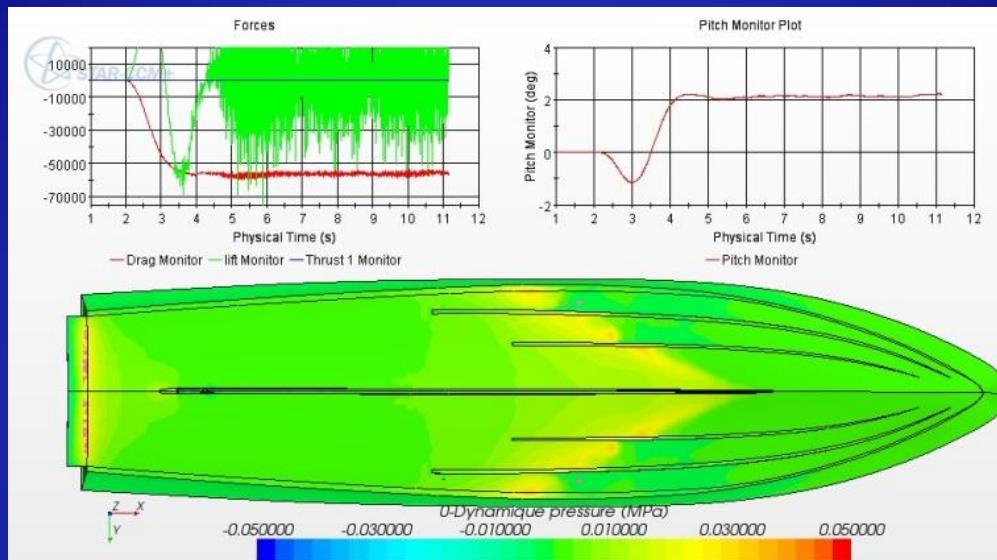

## 2. The meshing

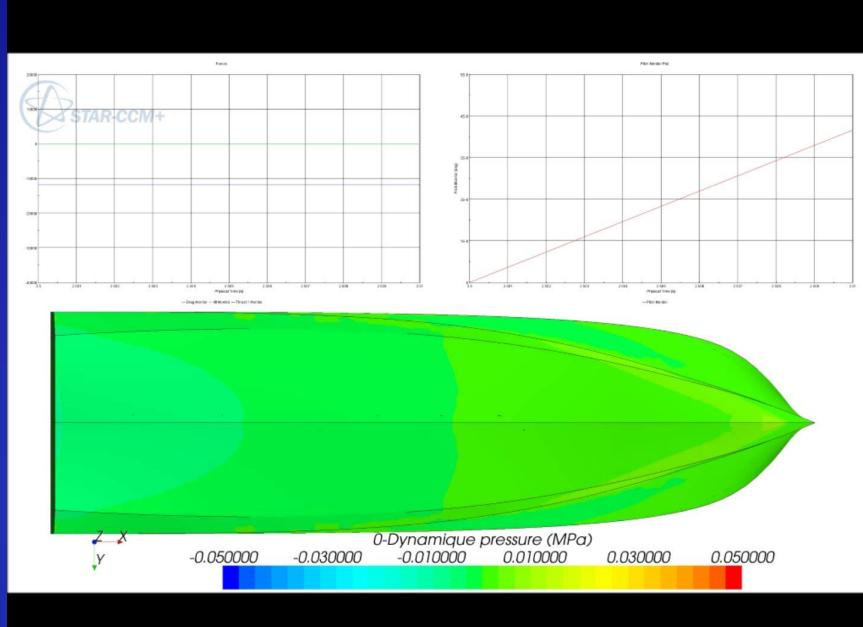

$$\text{Airsource } [1/\text{s}] = -\text{zone} * \text{VF\_air} * \text{C}$$

## 3. The time discretization

### 3. The time discretization

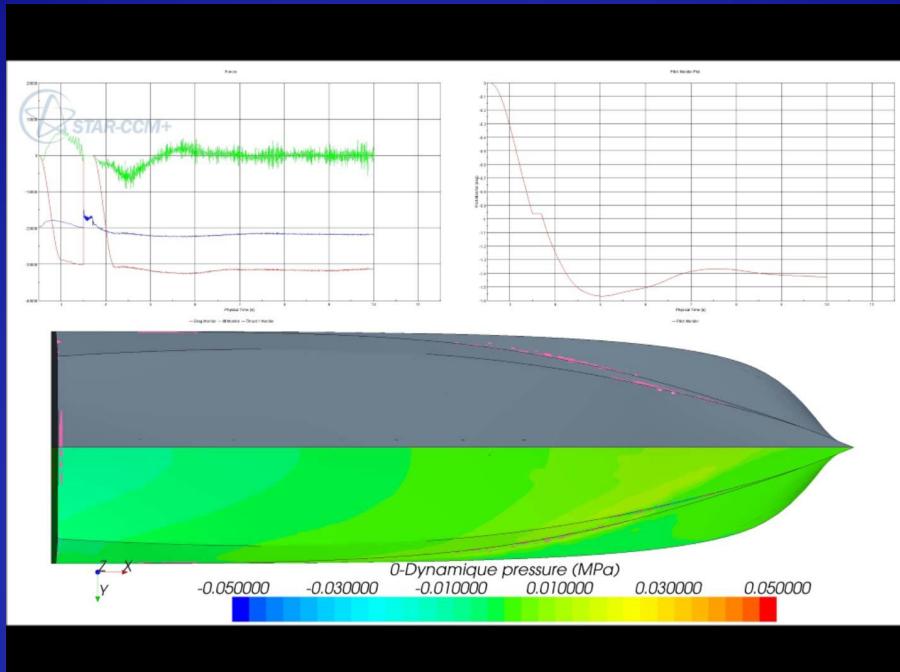

10/11/03

Master Thesis - Bastide - Intermarine - UNIGE

19

### 3. The time discretization

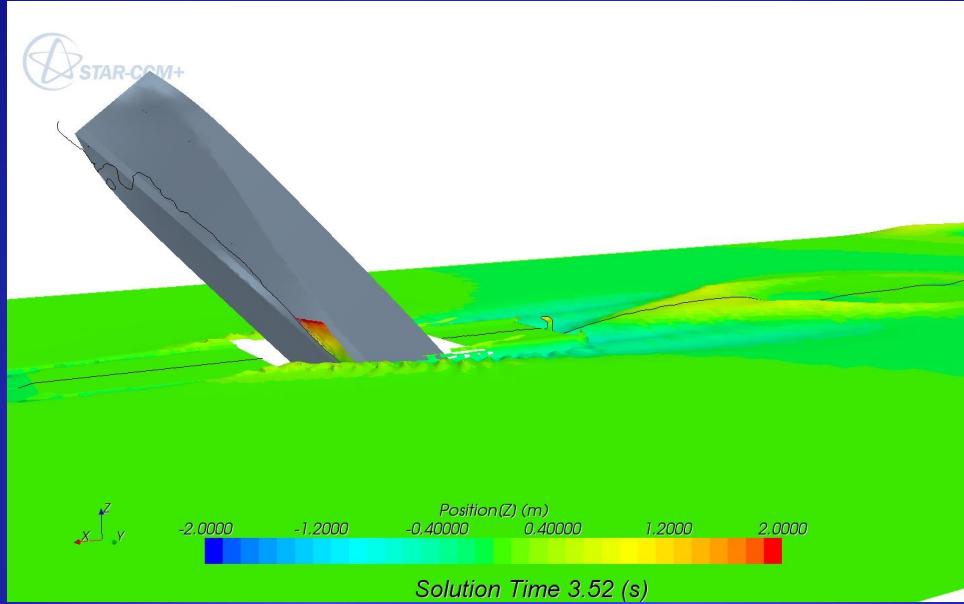

10/11/03

Master Thesis - Bastide - Intermarine - UNIGE

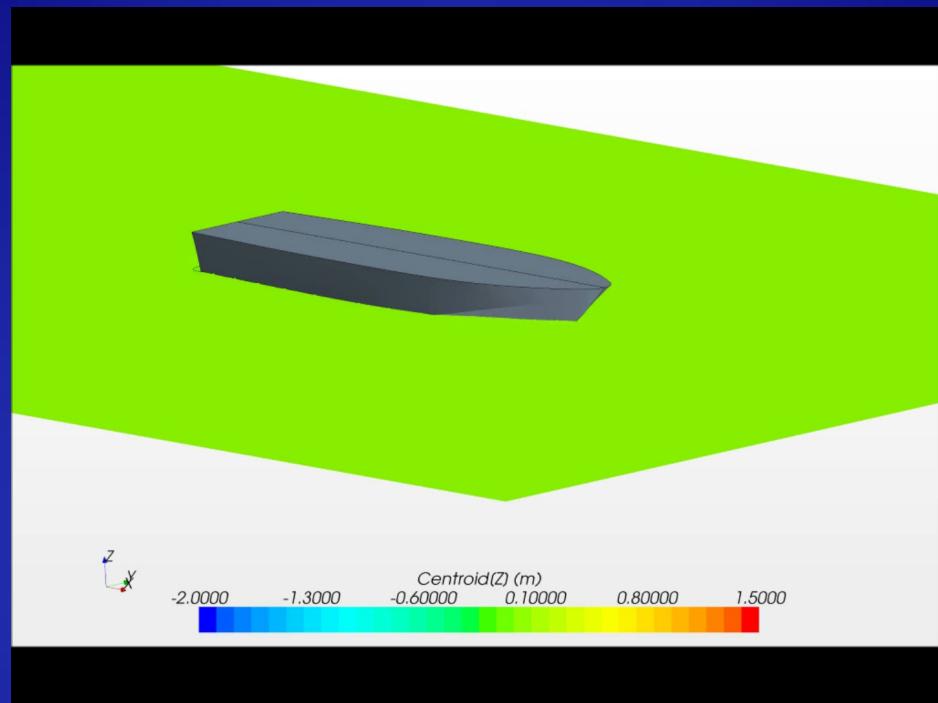

20

### 3. The time discretization

### III. The results

# 1. Star ccm+

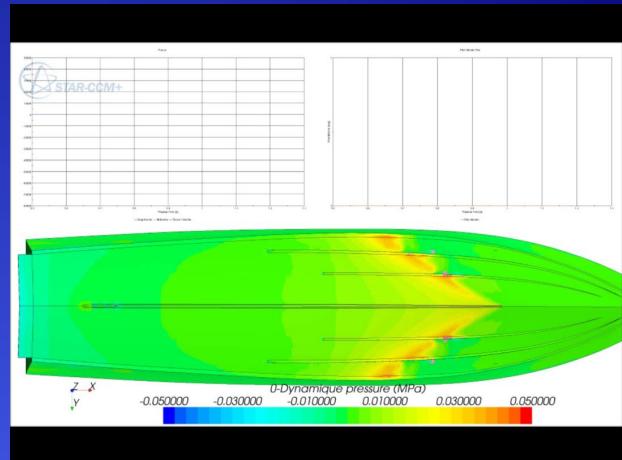

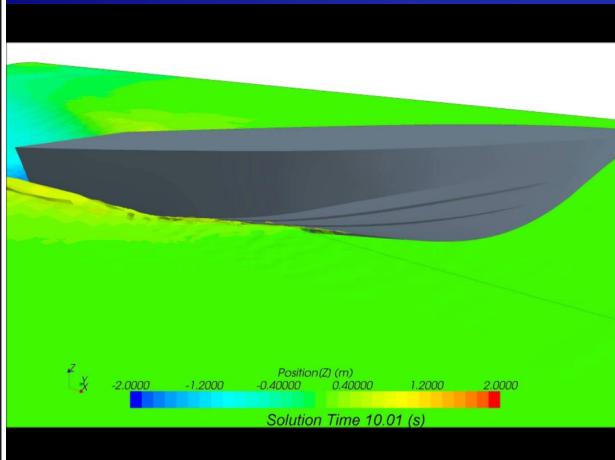

15/11/03

Master Thesis - Bastide - Intermarine - UNIGE

13

# 1. Star ccm+

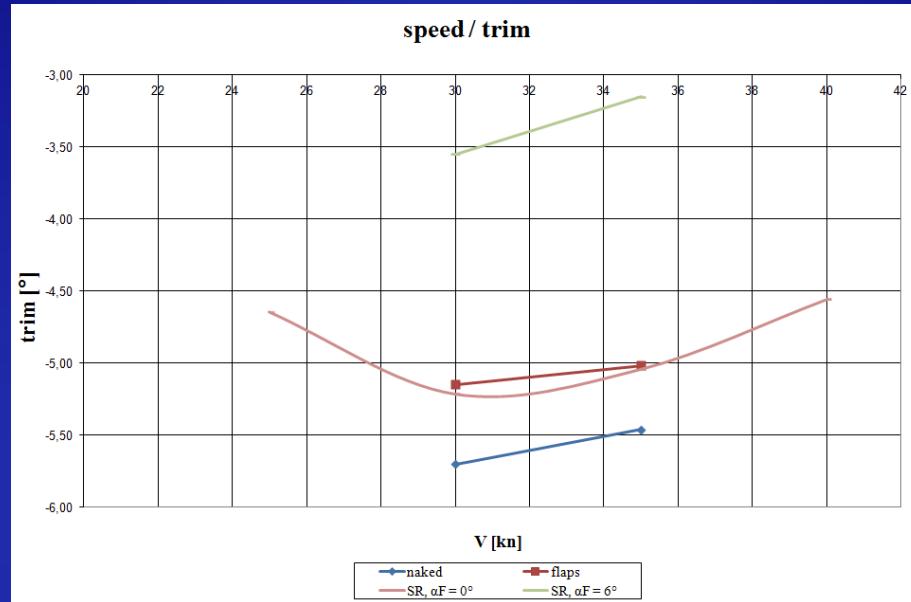

15/11/03

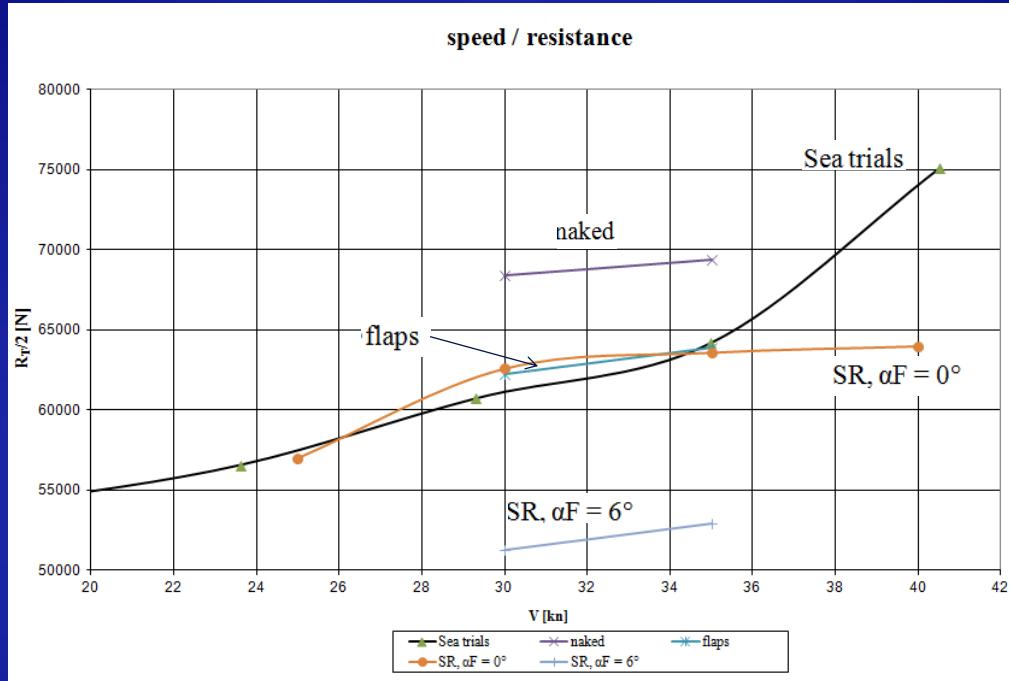

Master Thesis - Bastide - Intermarine - UNIGE

14

# 1. Star ccm+

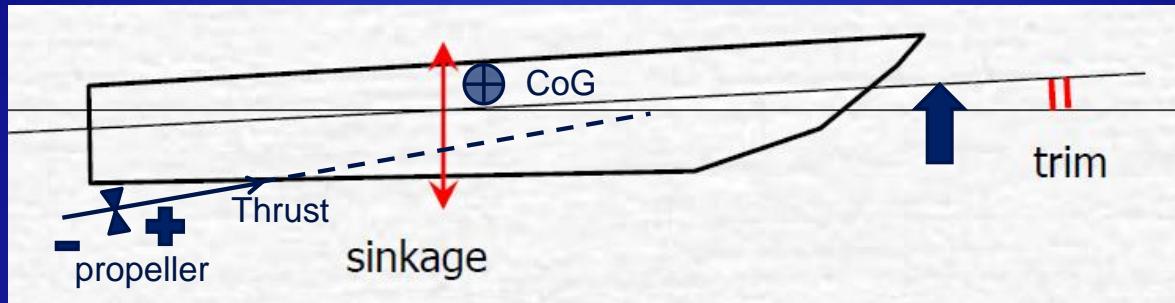

# 1. Star ccm+

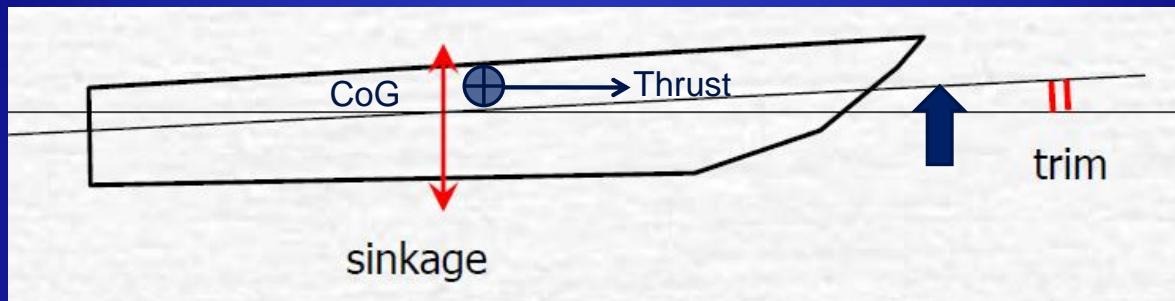

## 2. Sea trials

Real force system and flow

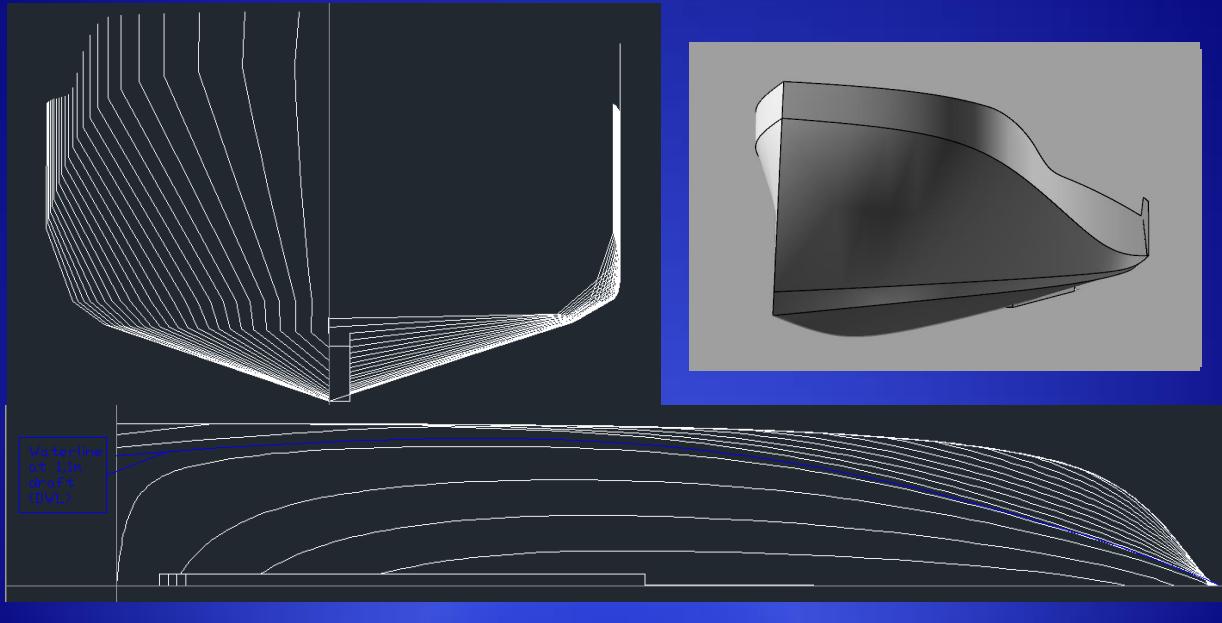

## 2. Sea trials

Towing tank and CFD

### 3. Towing tank tests

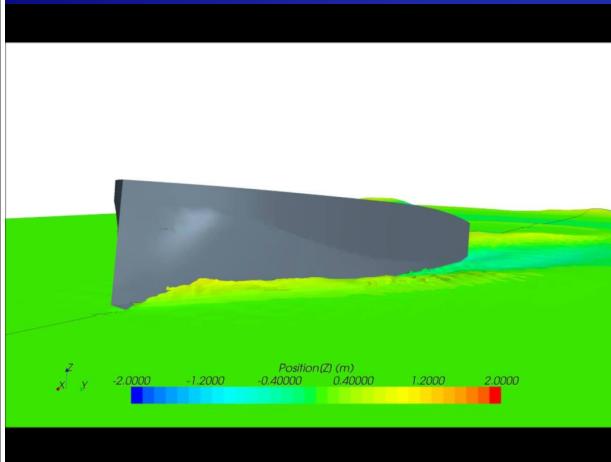

15/11/03

Master Thesis - Bastide - Intermarine - UNIGE

19

### 3. Towing tank tests

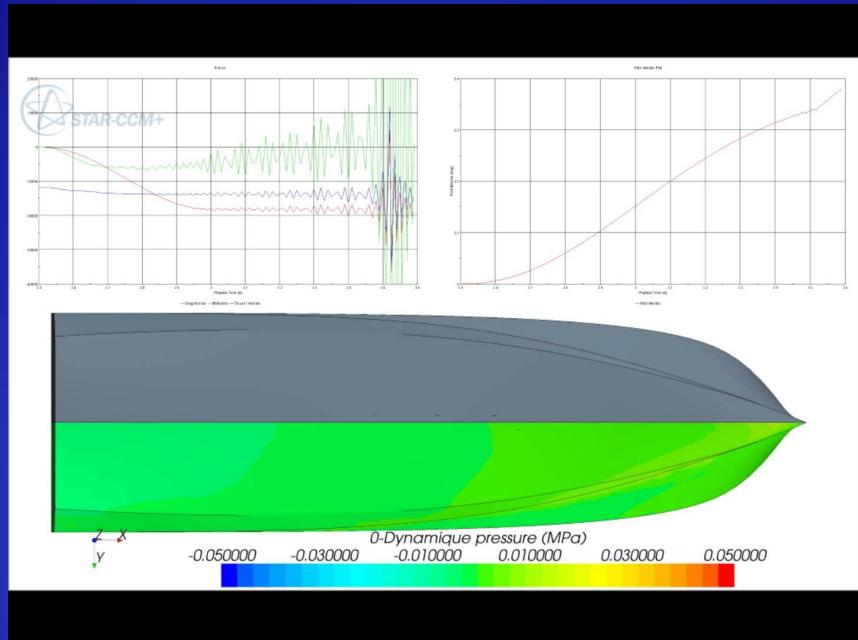

15/11/03

Master Thesis - Bastide - Intermarine - UNIGE

20

### 3. Towing tank tests

## IV. Conclusion

*Thank you  
Grazie  
Merci*
